Ed and Mary – attached is a revised version of the briefing paper. The results of key investigations are highlighted at the end of the paper – let me know if you want that part turned into a table. We are working on a map that shows the locations of the key sampling results and should have that to you early Friday morning. Our contractor still needs to do a little bit of finish work on it – we will send it on when we have it. In the meantime, please give us your feedback before we share with OSRTI/OLEM.
